

Jessica B. Verrigni, CPESC, CPSWQ

Technician Chemung County Soil and Water Conservation District

Jessica Verrigni has been the Technician for Chemung County Stormwater Coalition/Chemung County Soil and Water Conservation District since May of 2009. Jessica has been involved with the Phase II SPDES General Permits since 2003. In 2004 she became a Certified Professional in Erosion and Sediment Control (CPESC) and in 2007 obtained her Certified Professional in Stormwater Quality (CPSWQ). Jessica has 18 years of technical experience with Soil and Water Conservation Districts. She has assisted many landowners and communities on water quality issues associated with both stormwater and agriculture. In her current position, she provides construction site inspections, outfall inspections, assists Municipal Separate Storm Sewer System (MS4) communities in maintaining compliance with their SPDES General Permit, and provides education and outreach on all aspects of stormwater management and regulations. Jessica has a Bachelor's Degree in Plant Science/Environmental Studies from the State University of New York at Cobleskill.
