

VACANCY ANNOUNCEMENT

SOIL & WATER CONSERVATION DISTRICT MANAGER

Broome County Soil and Water Conservation District

Office Location: USDA Service Center
1163 Upper Front St.
Binghamton, NY 13905
(607) 724-9268 x5

Starting Salary: \$58,000+per year, negotiable based on education and experience
Benefits: Annual, Personal, and Sick Leave; Health/dental Insurance; NYS Retirement.

Statement of Duties

This is an administrative position responsible for coordinating and supervising the Broome County Soil & Water Conservation District (SWCD) programs. The work includes both administrative and technical planning of environmental and conservation programs. Such programs involve both private and public properties and entities in all aspects of natural resource management. Work is performed under State and Federal laws and guidelines as well as established District policies and procedures. Supervision is exercised over both technical and clerical District employees. Work is performed under the direction of the district board. Does related work as required.

TYPICAL WORK ACTIVITIES:

Supervises all aspects of SWCD programs including conservation planning, coordinated site reviews, and cost share programs with landowners and municipalities;

Responsible for personnel management to include staff meetings, setting district goals & also includes contract management & frequent meetings with other department heads & watershed groups;

Provides technical assistance to landowners and government agencies involving evaluation, layout, survey design, cost estimates, contract preparation, construction inspection, and supervision of best management practices regarding environmental conservation projects;

Prepares natural resource conservation plans, conducts site reviews, prepares evaluation and stream disturbance permits, and prepares GIS maps;

Recommends actions to be taken by the board of directors concerning landowners and others requesting assistance;

Prepares analysis of agency workload and makes recommendations as to allocations of personnel & equipment and prepares statistics on cost estimates pertaining to various projects;

Assists in the preparation of the district's budget;

Monitors and reviews the progress towards project completion and recommends payment for work completed;

Performs general administrative duties involving general office routines and procedures including reports to the board;

Functions as the representative of the SWCD and the District Board at meetings of cooperating agencies, organizations & municipalities;

Explains the purposes of the conservation program, specifically the prevention of soil erosion and value of soil conservation;

Works with administrators of other public and private entities to coordinate SWCD program objectives;

Collects data, prepares surveys, maps and specifications of potential conservation projects;

Acts as the contracting officer in the negotiating of contracts for environmental projects between the district, landowner, governmental units and construction contractors;

Schedules work for contractors and supervises the work as examples by the construction of diversion terraces, open drainage, tile drainage systems, ponds and other kinds of soil and water management;

(Continued on page 2)

Typical Work Activities Con't

Develops funding proposals for programs furthering the goals of the conservation district;
Writes grant proposals, negotiates and implements contracts, and writes final reports on grant funding;
Participates and/or interacts with various programs and committees related to the Conservation District;
Responds to complaints or questions from the public regarding wetland jurisdiction.

Minimum Qualifications:
